

Comprehensive protection against:

1

Flat tire repair, mounting, demounting, valve stems and disposal

2

Road hazard damage for Tire or Wheels, with separate coverage limits for wheels and tires

3

Repair or replacement due to puncture, bruise, impact breaks, including retreads

> Repair or replacement of damaged tires and wheels, as well as new tires (including retreaded), are covered up to following limits:

> *"Tires are one of the biggest expenses for truck owners, and road hazards like potholes, debris, and blowouts can cost you hundreds –if not thousands–in replacements. It's a small cost upfront for big savings down the road."*

Vehicle Class	Tire Component Limit	Wheel Component Limit	Flat Tire Repair Limit	Mount & Balance Limit
2 - 4	\$500	\$500	\$60	\$75
5	\$650	\$650	\$60	\$75
6	\$800	\$800	\$60	\$75

Tire repair or replacement of damaged original equipment tires as well as new tires (including retreaded Drive tires) when damage is caused by road hazards when there is more than **3/32"** of tread left on the Steer tire or the Drive tire. Coverage up to the replacement tire purchase price, not to exceed the vehicle class Tire Component Limit. Replacement tires will be covered for the remainder of the Contract Term. Roadside replacement is limited to the contract holder's spare tire. Commercial trucks and vans current plus **10 model years**. Terms up to **60 months**
